EDUCATION

Pratt Institute | *BFA, Digital Arts — Interactive Design* Brooklyn, NY

Expected Graduation: [06 2027] · Focus: Interactive Design, Physical Computing, Creative Coding, VR/AR, Installation, Service Design

EXPERIENCE

UI / OTT Design Intern | *Zhejiang Radio and Television New Media Co., Ltd.* Summer 2024

• Supported interface and digital product design for OTT / media-related platforms, producing UI iterations and visual assets from product requirements and team feedback.

• Collaborated across design and development workflows to translate concepts into clear, usable digital experiences.

Graphic Design Intern | *Heico Holding Group* Summer 2025

• Researched overseas financial and prospective clients in international housing development.

• Organized market and company information for cross-border outreach, strengthening research, communication, and service-oriented workflow skills.

SELECTED PROJECTS

MTA Live Arrivals | *UI System + Data Visualization* 2025

• Designed and built a real-time NYC subway information system aggregating MTA GTFS-RT feeds across 22 lines, combining live arrivals, service alerts, crowd overlays, station search, and adaptive themes in a React/Mapbox interface.

Housing Solutions | *UI System + UX Research* 2025

• Conducted user interviews, an 8-platform competitive audit, and usability testing with 5 participants; translated findings into comparison, neighborhood-insight, and shortlist tools designed to reduce decision fatigue.

Zero-kit AR Poker | *Interaction Design + AR Development* 2025

• Developed a face-to-face multiplayer AR Texas Hold’em experience for 2–6 players, with a shared spatial table, private hands on individual devices, and real-time rule validation using ARKit, RealityKit, and local peer connectivity.

SKILLS

Creative Technology: TouchDesigner, Arduino, p5.js, Three.js, MediaPipe, Unreal Engine 5, Unity

Programming: JavaScript, Python, HTML/CSS, GLSL

Design & 3D: Figma, Adobe Creative Suite, UI/UX Design, Interaction Design, Blender, Maya, VR Prototyping

Methods: User Research, Service Design, Physical Computing, Creative Coding, Rapid Prototyping

Languages: Mandarin Chinese (Native), English (Professional Working Proficiency)
